

LED Saddlebag Tail Light for Harley Road Glide

2014-2023

VST-010102-014

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

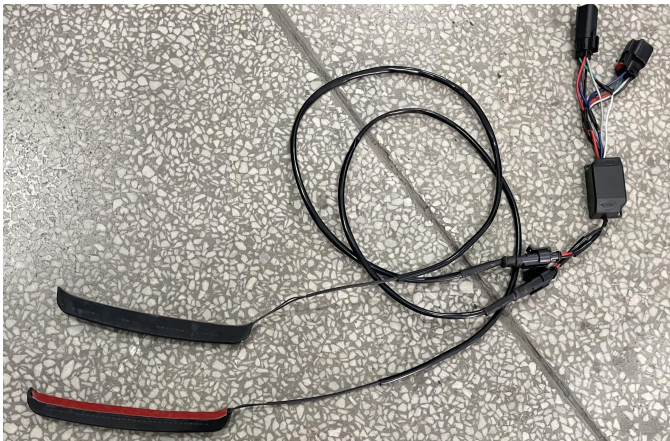

IMPORTANT

This LED saddlebag tail light is exclusively designed for your motorcycle. Please read the installation instructions thoroughly before beginning. Installation is easier if the motorcycle is clean and free of debris.

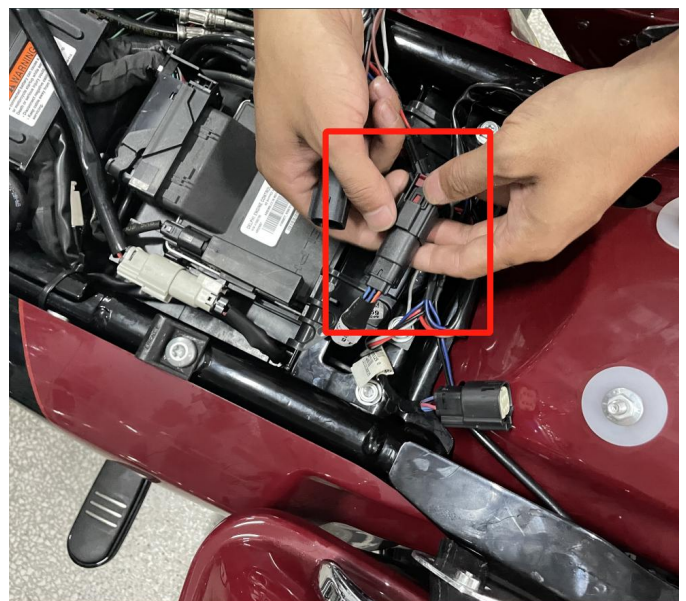

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from motorcycle.

1. Products Display

2. Remove the seat cushion, then locate the connector for the motorcycle tail light harness and disconnect it. As the picture shows:

3. Connect the adapter plug in the package to the wiring harness plug in the motorcycle tail

light. Then pull the taillights to the saddlebag rear on both sides (note: after connecting the wiring harness, start the motorcycle, turn on the turn signal light switch to check if the taillights function properly, and then install them). As the picture shows:

4. Wipe the installation area of the tail light clean, then remove the anti stick film on the tail light, stick the tail light to the edge of the saddlebag cover, and finally press hard to make the tail light better fit. (Please install the tail light on the other side in the same way). Finally, organize the wiring harness and reinstall the original car seat cushion. As the picture shows:
