

LED Headlight for Honda Rebel CMX500

VST-010201-003

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

This LED headlight is exclusively designed for your motorcycle. Please read the installation instructions thoroughly before beginning. Installation is easier if the motorcycle is clean and free of debris.

INSTALLATION INSTRUCTIONS

Note: Shift motorcycle transmission into "PARK". Turn key to "OFF" position and remove from motorcycle.

1. Products Display

2. Remove the original motorcycle headlight and install the four steel clips on the rear housing of the original headlight onto the new headlight in their original positions. As the picture shows:

3. Firstly, connect the wiring harness plug of the new headlight to the wiring harness plug of the motorcycle, then start the motorcycle and turn on the headlight switch to check if the headlights are on; After confirming the accuracy,
