

LED Headlight for Kawasaki Ninja 400

VST-010701-003

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

This LED headlight is exclusively designed for your motorcycle. Please read the installation instructions thoroughly before beginning. Installation is easier if the motorcycle is clean and free of debris.

INSTALLATION INSTRUCTIONS

Note: Shift motorcycle transmission into "PARK". Turn key to "OFF" position and remove from motorcycle.

1. Products Display

2. Remove the original motorcycle seat cushion, both sides decorative panels and headlight cover. As the picture shows:

VST-010701-003

3. Firstly, remove the original headlight from the headlight cover, and then install the circular rubber plug of the original headlight on the new headlight in its original position. Finally, use the original screws to secure the new headlight back to the headlight cover. As the picture shows:

4. Install the installed headlights and headlight covers back onto the motorcycle and connect the wiring harness connectors. Then start the motorcycle, turn on the headlight switch, and check if the headlights are working correctly. After confirming the accuracy, install the seat cushion and decorative panels on both sides back onto the motorcycle. As the picture shows:
